

FOOD & SOUP KETTLES

**CROWN
INDUSTRIES**

*Economy model
Soup Kettles*

Specifically designed to keep food at between 80 to 85 degrees celsius, complying with health regulations, the **CROWN FOOD & SOUP KETTLE** uses a thermostat that holds the water temperature within one degree.

The advantage of this advanced control system is that the food keeps hot for hours without drying out.

Made of durable high quality stainless steel the **FOOD & SOUP KETTLE** is ideal for caterers, take-away food shops, canteens in factories and child care centres, hospitals and sporting clubs.

Both models are available with thermostat control, black or stainless steel finish, concealed element and hinged lid.

ONE YEAR WARRANTY
